

© Gene Editing. 2021 Issue.

Contents

Pages 1-21

Sümbül Yıldırım et al.

Gene Therapy Products Reached to Market by 2021

Pages 22-30

Sezer Akgöl et al.

Development of Gene Editing Strategies for CCR5 gene in Endothelial Cells

Pages 31-35

Medine Karadağ-Alpaslan et al.

Diagnosis and Treatment of Fanconi Anemia: Special Focus on Nuclease-Mediated Gene Therapy.

Pages 30-35

Merve Uslu et al.

The Development of Recombinant hSpCas9 Production System in E.Coli.

Pages 36-41

Akgöl & Yetim et al.

CXCR4 gene editing with using CRISPR/CAS9 system in HUVECs.

Pages 50-60

Akyürek et al.

The Effect Of Molecular Genetic Mechanisms On Drug Addiction And Related New Generation CRISPR Gene Engineering Applications.
